Should be stickied. Posters are asking questions about this stuff all the time.

The last post made it to only 500 and then people in the comments were asking why I deleted all of the information inside (even though the info was still visible to me).

Some cowardly mod did an edit and didn't say a word. If this is how things are going to be around here, we can count on a loss and this site is as bad as or worse than the Reddit site.

Let's see how long this post stays up...or how long my account lasts. They won't shut my ass up.

Edit: Is any of the information on the original post still visible to you??? Link: https://thedonald.win/p/11R4gczpdy/i-see-a-lot-of-people-talking-ab/

The text was gone, but then I clicked on your second link and was able to read the information. This should be a post. I am tired of bullshit posts being stickied while inportant posts like yours are erased, deleted, hidden. The demon-crats are organized and determined and we need to learn from thier tactics and be organized too. Thank you for taking the time to post this inforamation, please keep reposting because it's really important.

I couldn't agree more. At some point all I can say is WE *GET* IT, MEMES. When it comes time to share information, they have started shadow-deleting shit. It's disgusting.

Also thank you and no problem.

I am tired of the KFC jokes, we are in the fight for our lives. If Biden gets in our country is over. Let's stop with the "Daddy" talk, and the memes and lets start organizing. I have a medical issue and I can not lose my insurance and I will lose my insurance if that child sniffer gets in the Whitehouse so I am more aware of what I am losing and I am frustrated. thank you for your time.

It's been overloaded lately. When you save select all and copy to clipboard first. watch the left side for 'network error'. If you see it you'll have to reload the page and enter or reply again. Having your stuff in the clipboard to paste again helps. Also sometimes there is a minute's delay before your message or edit appears on the page when your reload it. Welcome here!

Can we organize off-site somewhere for this important stuff?

I'm sure TD.Win is great and all, memes, rally, I get it, but we have to prioritize at this critical time.

This is history in the making, and we have to focus, now.

If they had an issue with any of the information, they could have messaged me and told me what to edit for whatever reason.

I only found out that the original was edited because people were saying it was a blank post in the comments. On my post history, it looks totally normal to me.

So... I see the links. I understand why you may be frustrated. I assure you it is not some rogue mod or asshole that is shadow banning your original post. It is due to the content within.

Yes, I agree full heartedly, HOWEVER and it is a big however... we can not post links that affiliate/encourage malicious activity. I agree with you, I really do... but we can't have things like proudboys and bikers4trump highlighting TD.WIN because if any group that has a history of violence in any capacity lashes out and hurts or kills somebody.... then it is linked back to us, seen on TD.WIN and then we are shut down. There are smart ways about meeting up and finding the information that we need that does not in any way incriminate this site or put this site at risk. And to be honest, I think that that was the real intention of the initial shadowing of your post.

The patriot prayer one, I am not exactly sure if that is a gun activist or christian group (haven't looked in to it.) What I do know is that groups like trumpmarch and stopthesteal are great resources to have here and are perfectly fine to basically advertise and be linked to TD.WIN.

We will win this fight and Pedo Joe will not set one foot in the White House... PERIOD.

Good work pede, but understand we have to do this as tactically, safe and as well thought out as possible... lest we give the enemy ammunition to destroy us.

3 % hasn't done anything shady. I disagree that removing all content from the post is somehow justifiable. Getting to DC safely is one of the 2 big things that matters right now. The other being to barrage all Officials, elected or not. State legislators, US Senate and House, State AGs, SoS, Governors ...

If this site officially had problems with 2 links in the OP, contact the guy saying so. He's reasonable. Also, labelling PB as bad is bs.

> Also, labelling PB as bad is bs.

I agree. For fucks sake I am a censored.tv member followed Gavin and his initial creation of the PB, I support them. What I was saying is public perception, which as we know.... isn't exactly favored in public mainstream media.

I did not mention 3% as a potential problem for public perception. Honestly though, I agree. Getting to D.C. is number one right now and however we all go about it, we need to find a way that will be far easier and safer to communicate through. I already lost my discord, 8 reddit accounts, twitch and my original beta gmail account. I am losing everything trying to stay in touch with people and make the right plans, but it is damn near impossible when we are in essence fully under attack and plenty of us are shooting our group in the foot.

As the 6th draws near and plans are set, the day of and onward, no more secrecy is needed, we go full boar. We will win, we must focus... but, WE WILL WIN.

If you truly think that the Proud Boys and others are some rogue group who "encourage malicious activities" then you truly have no idea who they are or what they're about. There are also plenty of other people speaking up about shadow-deleted/shadow-edited posts. A simple disclaimer would also do the job for any pussy mod who'd rather sit behind a keyboard than be in the real world helping.

Ignorantly following the msm narrative and disparaging the names of these organizations makes you no better than the people in the media that are in charge of smearing them in the 1st place. Likewise, this also makes the mods who censor these benign links no better than the same social media companies that they all bitch about 24/7. Falling in line cowardly is one thing, behaving hypocritically while pretending to be different is another thing.

I would highly suggest educating yourself beyond a sizzle reel compilation of events before speaking badly about any group of patriots. These people fundraise for small businesses during lockdowns, do toy drives for children, teach 2A safety and responsibility, show up and rally when normies won't, they advocate for entrepreneurs and protecting women/children, and many, MANY other things.

You're *demonstrably* wrong here and should honestly be ashamed of the inaccuracies in that post. If it weren't for many of these patriots holding the line, you'd be in a lot worse shape than you are currently. All of us would.

> If you truly think that the Proud Boys and others are some rogue group who "encourage malicious activities" then you truly have no idea

I DON'T! It's not about me or us for that matter. It is about perception. I don't think there is a clearer way of stating it.

We got to be loud and heard, but we got to do it in a manner which doesn't get the wrong idea. Unfortunately, I know all too well how the left works. I was fired from a job in 2017 beginning of that year because of something that took going on unemployment to get a investigation into it. Turns out, the little Pepe the frog lapel pin I wore was deemed a racist hate symbol by the ACLU and my new boss of less than a year used that as grounds to fire me. I was only told originally that I was a racist, even though I had been with the company for 13 years without a single incident leading up to that.

So I understand emotions are running high, BELIEVE ME, but if we get overzealous and link to just anything without regard to public perception, than we already lost. We must be smart about this.

Perception isn't our problem. This will be spun even if we all sit around in a circle braiding each other's hair. People need to stop worrying so much about peace and love and optics.

People need to go and show everyone what they're up against and never make a move first when it comes to physical.

The msm will spin things regardless. The problem with what you're advocating is this: They step up into your face, you take a step back. They do it again, you step back. Now you're 2 steps FURTHER away from the intended goal because "muh optics" and "muh pacifism". Your unfortunate situation is a prime example of this. You did nothing wrong and got shit on anyway. They will find a way to smear this no matter what, fren.

These people mistake kindness for weakness. It's time for ground to be stood. Period. Plant yourselves like a tree and fuck em if they're in your face. Optics won't change until we reform Section 230/HR 4310 or simply own the media for ourselves (and the latter won't ever happen). Until then, roll around in the mud or be willing to lose.

Your mentality is coming from the perspective that this is a fair battle. It isn't and hasn't been. That's how we got here. We play by the rules like good little boys and girls and they burn shit down. This isn't a perfect world and idealism doesn't apply here unfortunately.

Stand that ground and hold that line. Worrying about how we're presented is a fool's errand. **There is a wide breach between senseless violence and not caring what others think. It's time to shit or get off the pot here. Political willpower is a joke on our side and that NEEDS to change. It doesn't take violent outbursts for that to happen, it takes unapologetic courage.**

I think you are missing the point. I understand what you are saying/suggesting, however and it is a YUGE HOWEVER... Your energy, while I and many here not only love it but we also share it as well, is more divisive more than it is helpful. Your intentions are pure, but one thing to remember is that this is not a war of strength because if it was we would have already won. There are ways, from within that we will attack first. When the time comes for boots on the ground with rifles at the ready, we will know, but that time while it is not yet and we still don't know when it will be... it is coming. It could very well happen on the 6th and many (hopefully most) of us will be there. We have time, we have power and we have the constitution on our side.

Let's focus on doing this right instead of sitting around calling the mods worthless and lets try to understand what we as a community can do to protect ourselves as well as the platforms we have remaining to communicate with. Otherwise all of this is for naught.

As an older, not quite a true boomer but close, Pede who is not religious but believes most importantly in a free and fair election... we can't let our anger cloud our endgame goals. WE ARE SO CLOSE TO FINISHING AND WINNING THIS, SO DO NOT GIVE UP!!!

I have no desire to sit here and argue back and forth about this. I disagree with you. It's as simple as that. I would actually argue that you're missing the point as well. Who are you more likely to listen to? The army of pissed off patriots who stand organized together and at the ready? Or a group of people standing around holding hands and following all the rules while the establishment wipe their asses with our Constitutional rights and their cronies burn our cities?

You can cuck out on this all that you want (no offense). Just do us a favor and stay out of our way if you truly feel that way. Your mentality of complacency and hyper-concern/carefulness is exactly how and why we're all in this situation to begin with in my personal opinion.

When someone FAFO, they learn their roles a little better and they remember it before overstepping again. Tell me how well the constant walking on eggshells has worked so far because, from what I can tell, it hasn't done anyone any favors as the deadline quickly approaches. Ask that group of protesters in Oregon today who got illegally pepper sprayed by the cops how well it worked to follow the rules to a tee. Meanwhile, there are 2 autonomous zones full of antifa armed with fully auto rifles on the west coast just existing.

It's now or never with this election. If that's not the time to get fired up then everyone might as well just go back to sleep like always. Wake the fuck up....everyone. I'm tired of the "play it careful" people and so are many of the rest of us. We're not fucking murderers and rapists, we're working class people who won't be trampled on. It's time for people to grow a goddamn pair or just roll over and take it.

Our Constitution says "SHALL NOT BE INFRINGED". That isn't up for anyone to interpret differently. Period. Allowing it to be interpreted differently is how we got these bullshit regulations in the 1st place.
